CURRICULUM VITAE

Coming from a strong creative background, I am now looking to re-establish myself as a developer. Programming is an area that I have always been interested in and I am now taking the opportunity to explore it as a serious career. To facilitate this change, I recently graduated from a coding Traineeship as a full stack developer including completing two real-world projects successfully to specification using a wide range of programming languages. Throughout my career to date, I have gained excellent managerial and teamwork skills, which I hope to apply alongside my technical skills in a new and challenging role in development. I am eager to gain commercial experience in the industry as I see myself working as a developer for the long term.

PERSONAL DETAILS

NAME: James Aubin

RESIDES: Southampton

TRANSPORT: Full UK driving licence and vehicle

RIGHT TO WORK: British Citizen

CODING TRAINEESHIP   **IT Career Switch Ltd**
Coding Traineeship – Full stack developer
1-year program

During the traineeship I had to demonstrate a very competent level of the following programming languages and technical skills

- HTML5, CSS3, JavaScript
- PHP, SQL, React, jQuery
- Python, Node.js, Bootstrap
- Command line Git, Github
- Remote API access

ADDITIONAL TECHNOLOGIES:

- Adobe Photoshop, InDesign, Illustrator, After Effects, and Adobe XD

DEVELOPMENT EXPERIENCE:
Below are the two briefs of development projects I completed with IT Career Switch which can be found in my bio:
https://jamesaubin.co.uk/

Portfolio Project #1: "Gazetteer"
The specification was to reply to a website specification for a map-based app to provide information on countries, with a focus on a "mobile-first" development. Preferably using a framework, to then develop HTML, CSS and JavaScript with JQuery modules that use PHP server-based components to source data from third-party APIs (Geonames, OpenWeather). The solution is assessed on its delivery to specification, functionality, and usability.

Portfolio Project #2: "Company Directory"
A more rigorous reply to this specification was required as a user requirements document was needed to be prepared which, when signed off, triggers the release of SQL allowing to develop a "mobile-first" application to maintain a company personnel database (MySQL). Sign off is only achieved upon the student supplying an independently witnessed document providing confirmation of the system's ability to perform error-free.

CAREER HISTORY:

Jul 2023 – Present   **Mayflower Theatre**
POSITION HELD: **Front of House Assistant**

- A mix of bar work and front of house, regularly providing great customer service as well as assisting the management team
